

SPRING - Decision Making Methodology and Interactive Workshop Example

Project:

Setting the framework for the enhanced impact of SPIRE projects

Project website: www.spire2030.eu/spring ?

SPRING is a Coordination and Support Action project with the objective of increasing progression towards the SPIRE goals and enhancing project return on investment by addressing the needs and barriers of those who make the decisions to adopt process innovations in industry.

This project has received funding from the European Union's Horizon 2020 Research and Innovation programme under grant agreement No 767412.

Sector:

Cement

found or type unknown

Ceramics

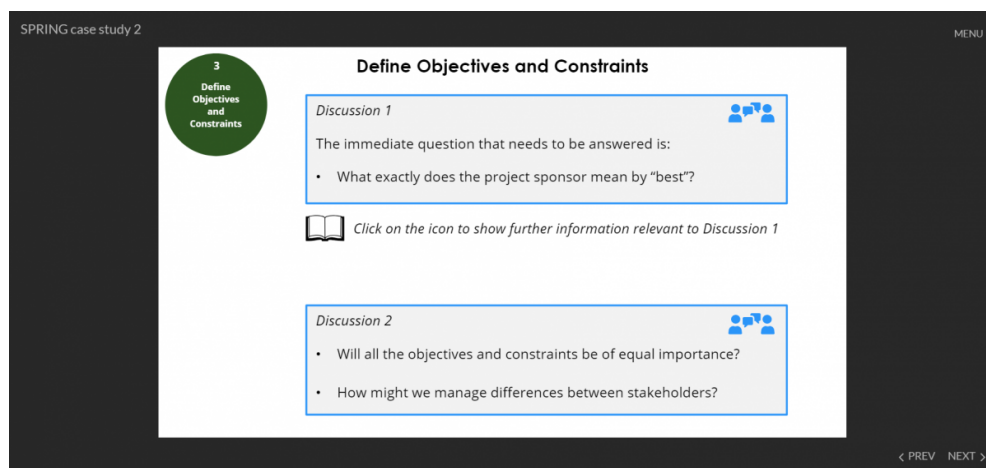

found or type unknown

Chemicals

found or type unknown

Engineering

found or type unknown

The interactive workshop example is available here: [Decision-Making Example](#)

Advisory Notes:

The methodology outlined is an example of a good-practice approach to decision-making in industry. If adopting a new approach to decision-making in industry, we recommend using an independent facilitator/ trainer to adapt the methodology to business specific needs.
