A.SPIRE on the stage of another European event!

Pierre Joris, A.SPIRE President, and **Angels Orduna Cao**, A.SPIRE Executive Director, have taken part in the [**Digital Conference on Industrial Technologies 2020**](#) on the topic “*Transition to Sustainable Prosperity*”.

The association has been invited to intervene in different sessions. Pierre Joris has been one of the keynote speakers in the Plenary, a panelist in the discussion on “Europe’s Technological Sovereignty” and the moderator of the “European

Green Deal: Carbon Neutrality in Industrial Technologies – Is this Possible?” session.

Angels Orduna Cao has contributed with her presentation to the “Horizon Europe Partnerships – How They Create Opportunities for New EU Collaborations and How They Can Enable the Transition to Economic, Social and Environmental Sustainability” session. This panel presented a set of EU partnerships with tightest links to industrial technologies community.

A.SPIRE representatives participations delivered insights on the forthcoming **Processes4Planet Partnership** ambitions in relation to European goal to be the first Climate Neutral continent, with a circular economy and top competitiveness. Process Industries are at the roots of many value chain in Europe. This position gives sectors and this Partnership the power to be key actors to leverage the change and nurture innovative technologies.
