LET'S 2014 will be held in Bologna (Italy) from September 29th to October 1st 2014 with the aim of discussing the role of the Key Enabling Technologies pinpointed by Horizon 2020, in bridging the gap between excellence in scientific and technological research, innovation in industry and access to the European and global markets.

LET'S 2014 is a conference bringing together more than 1000 delegates from all over the world to discuss how Europe can support the growth and the creation of new jobs and face Societal Challenges through new products, processes and services, creating opportunities for European actors.

LET'S 2014 will focus on the fields of advanced manufacturing, nanotechnologies, advanced materials, processing and biotechnology and will explore how the industrial system should be able to develop the industry's ability to integrate - through a systemic approach - creativity, culture, knowledge and competitiveness.

The conference is an official event of the 2014 Italian presidency of the Council of the EU.
