Milan, 13-14 November 2014, Palazzo Lombardia - RINASCIMENTO: Emerging Industries – A New Engine for Growth is a conference organised by Regione Lombardia, with support of Éupolis Lombardia, in cooperation with European Commission's Directorate – General for Enterprise and Industry in the framework of the Italian Council Presidency.

The objective of the conference is to discuss the potential of emerging industries in shaping Europe's industrial renaissance.

The conference is targeted at European policy makers, business support practitioners as well as entrepreneurs in order to offer them an opportunity to share their views and knowledge on relevant issues regarding emerging industries and their potential for economic growth.
