

A.SPIRE

Post date:

30/07/2024 - 14:27

On 23 and 24 October 2024, A.SPIRE organises the Second Process Industry Conference at **BluePoint**, Boulevard Auguste Reyers 80, 1030, Brussels. The location is easily accessible and only 15 minutes away from the Brussels Airport.

Day 1: Stakeholders' Event

The first day (23 October) will be an open event with members and stakeholders; a plurilateral exchange where the green transition will be discussed and framed within the viewpoints of the industry and the European institutions.

The conference will be opened by Mr Pierre Joris (Domo Chemicals and A.SPIRE President),

followed by the sessions ***Empowering the Green Transition, The Role of Innovation in the EU Single Market*** and ***Sectors Dialogue: An Industry Deal for Different Regional Realities***, bringing together representatives of the European Commission and the industry. After the networking lunch, in the session ***Synergies for the Twin Transition***, the European Partnerships **Clean Hydrogen** and **CBE-JU (Circular Bio-based Joint Undertaking)** will discuss case studies exemplifying the challenges and opportunities of the industrial decarbonisation process.

The parallel sessions *Processes4Planet Projects & H4Cs Forum* will be a productive and insightful dialogue about emission reduction, circularity, resources, electrification and energy efficiency between expert voices who will map the landscape of the industrial green transition.

The day will finish on an upbeat note with a closing keynote and a lively networking cocktail.

The second day of the conference - *COLLABORATE, INNOVATE, TRANSFORM!* – will be dedicated exclusively to A.SPIRE members.

Join us on 23 October for a dynamic day, featuring discussions on the green transition, innovation, and industrial decarbonisation. Don't miss out on this opportunity to shape the transformation.

Register as a non-A.SPIRE member **HERE**.
