On 01 July 2024, the SEE BRIDGE project (full title: *Building Resilience In social Economy SMEs for Greener & Digital production towards the goal of a climate-neutral Economy*) published **an open call on the EU Funding & Tenders Portal**, providing up to **8.000 EUR** to applicants for soft services such as business support, coaching, consultancy, event attendance, training, etc.

The call will be open until **01 October 2024**. The expected duration of participation is up to six months for implementing the funded activities. Additionally, the selected applicants will receive priority access to an additional free tailored Acceleration Program to support their operational efficiency and sustainable practices.

The SEE BRIDGE project aims to strengthen the capacity of social economy small and medium-

sized enterprises (SE SMEs) working in energy-intensive industries, or in sectors that are part of upstream or downstream value chains in the energy-intensive industry ecosystem, such as aluminium, steel, iron and others, to transition to more resource efficient and energy saving processes and operations in adaptation to **Carbon Border Adjustment Mechanism (CBAM)** legislation.

Check out **the open call on the F&T Portal**.

Find additional information about the call and a comprehensive guideline for applicants on the **SEE BRIDGE WEBSITE**.

**Co-funded by
