26 January 2015 the General Assembly of Knowledge4Innovation (K4I) approved the membership application of A.SPIRE in the K4I platform.

Knowledge4Innovation is an open, independent, nonprofit platform with a wide variety of stakeholders including small and large companies, universities and research centers, regions and cities, trade organisations and think tanks. As such, it is the leading Brussels based innovation platform operating within the environment of the EU Institutions. K4I members are from the private, academic and public sectors and include large networks such as EUREKA, COST, Cefic, ECPA and EFPIA as well as universities, regional development organisations, cities, think tanks and small enterprises. Knowledge4Innovation forms a large network which brings together actors, with different backgrounds and expertise, with the common objective of making topics relevant to Europe's innovation performance a top priority in EU policy making. At a time of major societal challenges and increasing global competition, Europe's competitiveness increasingly depends on its ability to become the world's leading innovation hub.
