

## SPIRE

Post date:

06/02/2019 - 17:18

A.SPIRE is now **actively looking to engage a consultant(s)** in the drafting, development and finalizing of **the next SPIRE 2050 Roadmap!**

As the Horizon 2020 framework programme slowly draws to an end, the new **SPIRE 2050 Vision** document (launched last October at the **SPIRE Stakeholder Workshop** in Brussels) has provided some solid and concrete examples of what role the SPIRE cPPP can potentially play within Horizon Europe. It has also created the momentum to revise the current roadmap and is paving the way to the creation of a new strategic SPIRE 2050 Roadmap.

Therefore, we invite and strongly encourage **interested potential candidates** to look at the Terms of Reference (ToR) below:

- **Terms of Reference Document**

Here you can read more on the background information and scope, the objectives and deliverables

to be achieved, the milestones, the selection process, as well as contract management and more.

The **deadline for submitting proposals is by Friday 1 March.**

For any questions or comments, you are welcome to send an e-mail to our Programme Manager, **Mihai Barcanescu.**
