

Midterm Conference Advancing energy-efficient industrial drying

Monday 10 November – Online

13:30 to 16:30 CET

13.30–13.50 h

The SteamDry Project

- *Harri Kiiskinen, VTT – Technical Research Centre of Finland*

13.50–14.10 h

Estimating energy savings potential

- *Sabrina Dusek, AIT – Austrian Institute of Technology GmbH*

14.10–14.30 h

Addressing technical challenges: sealing and steam purification

- *Floor Boon, WR – Wageningen Food & Biobased Research*

14.30–14.40 h

Break

14.40–15.00 h

Piloting the technology at VTT: pilot and digitalization

- *Roope Siilasto, VTT – Technical Research Centre of Finland*
- *Petri Kannisto, BFI – VDEh-Betriebsforschungsinstitut*

15.00–15.20 h

Developing concepts for industrial dryers

- *Kalle-Matti Romppainen, Valmet*

15.20–15.40 h

Expectations of product manufacturers and preliminary LCA

- *Eemeli Hytönen, Metsä Group*
- *José Luis Ares, USC – Universidade de Santiago de Compostela*

15.40–16.30 h
