

# THREADING-CO<sub>2</sub>

VALORISATION OF CO<sub>2</sub> WASTE STREAMS  
INTO POLYESTER FOR A SUSTAINABLE  
CIRCULAR TEXTILE INDUSTRY

DURATION  
**48 months**

STARTED ON  
**1 January  
2023**

COORDINATOR  
**FAIRBRICS SAS**

Funded by  
the European Union

THREADING-CO<sub>2</sub> has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement N° 101092257.

# THREADING-CO<sub>2</sub>

VALORISATION OF CO<sub>2</sub> WASTE STREAMS  
INTO POLYESTER FOR A SUSTAINABLE  
CIRCULAR TEXTILE INDUSTRY

1

Demonstration of the valorisation of CO<sub>2</sub> waste streams into low carbon circular polyester at industrial scale.

2

Production of high-quality commercially viable sustainable CO<sub>2</sub> based textile products capable of meeting market demands.

## AMBITION

3

Drastically reduce GHG emissions and environmental footprint of polyester manufacturing process.

4

Creation of a European value chain for sustainable PET.
