

A NEW VISION FOR EU INDUSTRIAL PARTNERSHIPS

Joint workshop by SPIRE, EeB and FoF

29 October 2018

Vienna, Austria

Three contractual Public Private Partnerships, SPIRE, EeB and FoF, join together to present and discuss their Visions for the next decades to answer the global challenges. Examples of the impact the three cPPPs are already generating within H2020 will be showcased. Building upon such current successes, each cPPP will depict the plans to deliver a wider and more ambitious impact for society, environment and economy.

Complementarities, opportunities to generate synergies to maximize impact, and alignments with EU and national policies will be discussed. The visions and cases that will be presented will show how Industrial Partnerships will have a cornerstone added value to reach the goals of Horizon Europe.

Preliminary agenda:

- 13:00 Registration and welcome coffee

- 13:30 **Industrial Partnerships in Horizon Europe: expected added value for key areas**
Jürgen Tiedje, European Commission, DG RTD

- 13:45 **The Visions of three industrial partnerships: shaping the future**
SPIRE 2050 Vision: towards the next generation of Process Industry
